

MZF Protocol | **Startups**

One of the world's first venture debt payment protocol token, revolutionising startup funding with non-dilutive financing solutions powered by AI and blockchain technology.

Why Traditional Funding Falls Short

Lengthy Process

Traditional VC funding takes 6-18 months, leaving startups struggling with cash flow during critical growth phases.

Equity Dilution

Founders lose significant ownership and control, sacrificing long-term value for immediate capital needs.

Geographic Barriers

Many promising startups are excluded due to location restrictions and limited access to traditional funding networks.

Step 1: Choose Your Funding Type

Select from our comprehensive menu of funding options designed for different startup needs and growth stages.

Mezzanine Financing

Hybrid debt-equity funding with flexible terms

Convertible Debt

Bridge financing that converts to equity later

Token-Backed Loans

Cryptocurrency-collateralised lending

Revenue-Based Financing

Repayment tied to company revenue performance

Step 2: Submit Your Application

Complete your application in minutes through our streamlined Web3 platform with automated document processing.

01

Upload Documents

Submit financial statements, business plan, and pitch deck through secure blockchain storage

02

Banking Integration

Connect your business accounts for automated financial analysis and cash flow assessment

03

KYC/AML Verification

Complete identity verification and compliance checks using advanced AI screening technology

Step 3: Get Funded Fast

Receive funding approval within days through our AI-powered credit assessment and automated smart contract deployment subject to eligibility requirements and KYC being met.

1

AI Credit Scoring

Advanced algorithms analyse your startup's financial health and growth potential in real-time

2

Quick Decision

Get approved or declined within 48 hours based on comprehensive risk assessment

3

Smart Contract Funding

Funds are deployed automatically via blockchain with built-in repayment schedules

Key Advantages of MZF

Non-Dilutive Funding

Mezzanine loans with token rights instead of equity dilution, helping founders scale without losing ownership control.

AI-Powered Assessment

Advanced AI technology for rapid startup evaluation and risk assessment, providing funding decisions in < 5 days.

Global Access

Supporting emerging startups in underserved markets while maintaining regulatory compliance and local partnership frameworks.

Protocol Benefits

Rapid Approval Process

Get funded in less than 5 days versus traditional 6-18 month funding cycles with our streamlined AI-powered evaluation process.

Aligned Incentives

Members, startups & ecosystem participants get access to rewards through collaborative success, creating sustainable value-driven innovation partnerships.

Community Engagement

Token-based tools and incentive mechanisms designed to grow your supporter base, enhance user retention, and drive sustained community participation.

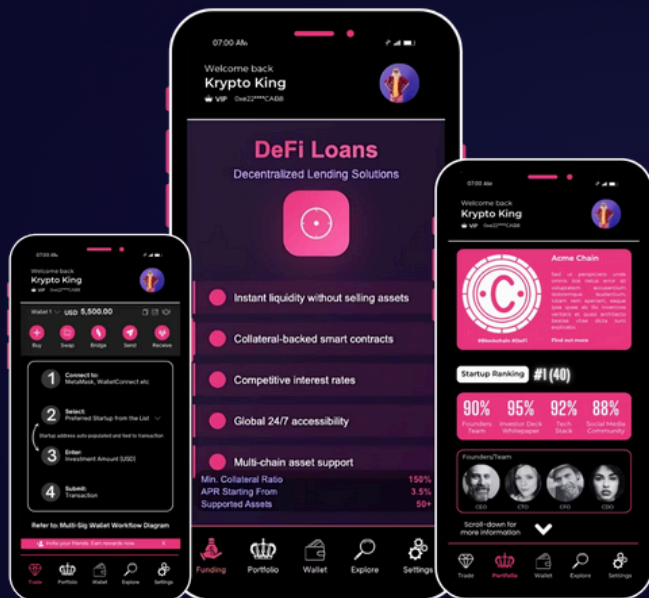

Ecosystem Visibility

Boost your project presence within the MZF ecosystem through discoverability, strategic partnerships, and amplified community engagement.

Funding Options Overview

Funding Type	Amount Range	Term Length	Best For
Mezzanine Financing	\$500K - \$12M	6 mths - 2 yrs	Pre-token launch protocols with strong community traction
Convertible Debt	\$100K - \$5M	2 - 5 yrs	Early-stage Web3 projects building toward token generation events
Token-Backed Loans	\$50K - \$2M	1 - 3 yrs	DeFi protocols with governance tokens or treasury assets
Revenue-Based Financing	\$250K - \$5M	1 - 3 yrs	Web2.5 SaaS transitioning to tokenised models
Venture Debt	\$500K - \$10M	4 - 7 yrs	Post-seed Web3 startups with upcoming milestone funding
Fixed-Term Loans	\$1M+	3 - 5 yrs	Established crypto projects with token treasury or staking rewards

Platform Interface

Experience our intuitive Web3 platform designed for Web3 startups. We align incentives between members, startups, and ecosystem participants, driving innovation and long-term value.

- ❏ Leveraging staking, engagement incentives, and decentralised finance (DeFi) principles, \$MZF ensures that all stakeholders are incentivised to contribute to the platforms growth.
